### "Jap in the Box."

A landed proprietor of the government of Ufa, Russia, writes to a local paper: "A typical German trickster arrived at our village of Anastasevka on April 12 and announced that the first Japanese prisoner was coming along in an iron box and that if the mtr (common council) voted a sum of 2 rubles the peasants would be allowed to hear him speak for mercy and afterward sing his national war song. The mtr apparently voted the money, for the performance was in full progress outside the state public house when I arrived. On a table in the roadway was a small box, from a trumpet affixed to which issued in good but squeaky English the famous 'Ta-ra-ra-boom-de-ay!'"

### Opium in India.

Six hundred thousand acres of India's land are used by the government for the cultivation of opium, the great bulk of which goes to China.

## FROM DEATH VALLEY'S GRASP

Narrow Escape of a Party of Prospectors From Starvation.

Manvel, Cal., June 27.—Henry DeLong and Herman Gouldberg have arrived from the Death valley region with the news of the narrow escape of a party of prospectors from death on the desert by thirst and starvation. The party was returning from the region of the Furnace creek mines, where they had been on a prospecting tour, and were attempting to reach Needles when they lost their way.

After wandering for many hours on the desert they were discovered by DeLong and Gouldberg by the merest chance. A pack horse belonging to the prospectors had strayed away from the party and, crazed with thirst, had wandered into the camp of DeLong and Gouldberg.

The men at once took up its trail, suspecting some accident, and, following it until the next morning, came upon the party of five prospectors near Kingston peak, in a most desolate and barren region. All the men were exhausted. Some of them were delirious, and one of them had already become unconscious and had been carried by his companions for a considerable distance.

### Boston Takes Warning From Disaster.

Boston, June 27.—Reduction in the number of passengers which Boston excursion steamers are permitted to carry has been ordered by the local United States steamboat inspectors, who have just completed a rigid inspection of all the excursion steamers of this district. It is understood that the investigation was especially thorough because of the recent General Slocum disaster in New York. It is announced that the law obliging companies to stop passengers from boarding steamers when the limit has been reached will be strictly enforced.

### Two Dead in Train Wreck.

Delaware, O., June 27.—The south-bound Twentieth Century limited on the Big Four railroad jumped the track here while running sixty miles an hour. The wreck was caused by spreading rails and took place about 300 feet from the station. The engineer and baggage-master are dead.
